PROFESSIONAL SUMMARY

Computer Science and Engineering (AI & ML) undergraduate with experience in full-stack web development, UI/UX design, and database management. Proficient in building responsive web applications using React.js, Next.js, FastAPI, and MySQL, with strong problem-solving and software development skills.

EDUCATION

Vellore Institute of Technology, Vellore

June 2024 – June 2028

B.Tech in Computer Science and Engineering (Artificial Intelligence & Machine Learning) — CGPA: 7.45

Relevant Coursework: DSA, OOP, DBMS, Operating Systems, Computer Networks, Web Development, Software Engineering, Cloud Architecture, AI, Machine Learning

PROJECT EXPERIENCE

Patient Healthcare Records Management System | *React.js, FastAPI, MySQL, REST APIs* Feb 2026 – Present

- Developed a healthcare records management system using React.js, FastAPI, and MySQL for patient registration, authentication, medical records, prescriptions, and appointments.
- Designed Figma UI/UX prototypes and implemented dashboards, search, validation, and CRUD operations through REST APIs.
- Integrated frontend, backend, and MySQL using structured SQL queries, secure connectivity, and Git/GitHub for version control.

E-Commerce Web Application | *Next.js, React.js, TypeScript, Tailwind CSS*

July 2026 – Present

- Developing a responsive e-commerce platform using Next.js App Router, React.js, and TypeScript with product browsing, category pages, shopping cart, and order tracking.
- Designed Figma wireframes, high-fidelity mockups, reusable components, and interactive prototypes prior to implementation.
- Implemented modular routing, reusable UI components, Tailwind CSS, REST API integration, and scalable frontend architecture.

UI/UX DESIGN PROJECTS

Women's Safety Mobile Application | *Figma, UI/UX Design, Wireframing*

June 2026

- Designed a mobile safety application featuring SOS, live location, emergency contacts, medical emergency support, disaster alerts, law enforcement support, and domestic violence assistance.
- Created wireframes, user flows, interactive prototypes, and responsive UI components to improve usability and navigation.

Air Jordan E-Commerce Landing Page | *Figma, UI/UX Design, Prototyping*

July 2026

- Designed a responsive sneaker e-commerce landing page in Figma with reusable components, product showcase, typography hierarchy, and interactive prototypes.
- Applied modern UI/UX principles, visual hierarchy, color consistency, and responsive layouts to create a cohesive product experience.
